

KR 18-24 Re-use of existing standards

Two subsections for DrawingML (Editorial work)

The section specifying DrawingML should be separated into two subsections. The first subsection specifies the framework of DrawingML describing structures, properties, and interfaces to the components. The second subsection describes components of DrawingML such as text, charts, tables, and diagrams.

ECMA: Proposal for Reorganizing DrawingML

It is proposed that the following editorial change be made to the DrawingML specification:

1. The DrawingML specification is to be reorganized into two sections
 - a. DrawingML – Framework
 - b. DrawingML – Components
2. The following sections in the DrawingML specification will be moved into the “DrawingML Components” section
 - a. DrawingML – Paragraphs and Rich Formatting, Section 5.1.5
 - b. DrawingML – Tables, Section 5.1.6
 - c. DrawingML – Charts, Section 5.7
 - d. DrawingML – Chart Shapes, Section 5.8
 - e. DrawingML – Diagrams, Section 5.9
3. All remaining sections of the DrawingML specification will be moved into the “DrawingML Framework” section.
